Manchester Tank Announces Price Increase on ASME RV Tanks & Motorfuel

Franklin, TN ---- Manchester Tank & Equipment announces a 3.5% price increase on all steel ASME RV, and Motor fuel. "Raw material steel costs are increasing in excess of 29%. With prices on the rise, including transportation and energy, we simply cannot continue to absorb these costs and remain viable." stated Rick Simpson, Vice President of Sales & Marketing.

The pricing will go into effect on all order shipped on or after March 1st. 2008.

About Manchester Tank

Since 1946, Manchester Tank has remained the premier manufacturer of low-pressure vessels for propane, air, and industrial applications in North America. Manchester Tank is headquartered in Franklin, TN and operates five plants in the United States and one in Australia. Manchester tank is a privately held company and a division of McWane Incorporated.

At Manchester Tank, customer service is the key to our success; this is accomplished by functioning as a team to provide a high quality, reliable product, which exceeds the expectations of our customers. We are continuously improving operations and processes to remain the innovative market leader of low-pressure vessels. We are committed to quality, while creating a safe and clean working environment for our employees, as well as a fair return for our owner.
