Manchester Tank’s Forklift & Buffer Cylinders are a perfect, cost effective fuel source for small commercial engine lifts, floor sweepers, blowers, walk-behind mowers and other applications.

Features:
- Cylinders comply with Department of Transportation (DOT) and Transport Canada (TC) regulations
- Quick Coupler installed on all forklift cylinders
- Permanently positioned relief valve with a clear path to the outside of the cylinder, no adapters, which can be lost or misdirected
- Foot ring designed to withstand high impact
- Aluminum cylinders are shot blasted, resulting in a textured finish
- Stackable, for increased capacity on trucks
- Aluminum cylinders are vacuum purged and ready for filling
- Manchester Tank does not manufacture or sell cylinders designed or intended for use in hot air balloon service and does not sanction the modification of or use of our products for this purpose
