MTE Quincy Team Help With Clean-Up

November 05, 2012

(Manchester Tank Quincy Clean-Up Team pictured from L-R: David Schmelzle, Rhonda Schmelzle, John Schwener, Roger Stumb, Rick Nesit, Kyle Korb and David Rossiter)

For the fifth consecutive year, the Manchester Tank Quincy Team was a proud participant in the Living Land and Waters Greater Mississippi River Clean-up. MTE Quincy team members donated their time and concentrated their efforts on the clean-up of a portion of the Mississippi River in Hannibal, Missouri.

It was a rewarding and fun experience that gave team members the opportunity to work together for the good of the community. By taking the time to make a difference in our environmental surroundings we are insuring a cleaner and brighter future not only for ourselves, but for our children and grandchildren as well.
